REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens of the Town of Greenwood:

I hereby submit my second report of your schools:

Some changes were made in the plan of the schools for this year. The Patch Mountain school, which had only four pupils last year, was closed and the pupils conveyed to the Greenwood City school.

There have been some changes in the teaching staff.

The position made vacant by the resignation of Miss Gladys Salls, who has taught the Lockes Mills primary school most acceptably for several years, is filled by Miss Hazel Salls who taught the Richardson Hollow school last year. Mr. Guyson Davis, a graduate of Farmington Normal School, fills the position at Richardson Hollow.

Mrs. Morgan and Miss Maude Salls continued their work at Greenwood City and Tubbs respectively. Miss Edna Kemp of Portland, a graduate of Gorham Normal School, with two years experience, is filling the position in the intermediate grades at Lockes Mills recently occupied by Mr. Conant.

Mrs. Louvie Coffin, so long the popular Principal at Lockes Mills, resigned during the Christmas recess. This position is filled by Miss Adelaide Swasey, an experienced teacher of Lincoln, Maine.

The school census continues to decrease although the registration in the common school is greater than last year. The reason for this is that there have been some temporary residents whose children were in attendance for a few weeks. This explains the somewhat low average attendance. The attendance of the resident pupils has been excellent.

With only two students to be graduated from secondary schools this year and with ten pupils in the eighth grade the high school registration will continue to increase.

The Gates-Huber system of reading has been introduced in all the primary grades and material purchased to make the instruction in reading as efficient as possible. Supplementary reading material has been purchased for all grades. Some new histories and geographies were purchased to supplement those introduced last year.

The increase in the equalization fund has permitted the purchase of some new library and reference books and this fund will permit the purchasing of more before the end of the school year. A portion of the equalization fund is being used for the purchase of maps and globes. The equalization fund makes money available for slight increases in teachers' salaries. It may be well for the citizens to understand that the equalization fund can be spent only for purposes approved by the Commissioner of Education.

The members of the Superintending School Committee and the Superintendent feel that the small amount appropriated for repairs has been spent most advantageously. The condition of the water supply at Lockes Mills made it imperative that something be done to safeguard the health of the children. The water supply was inadequate much of the time last year and the water in the well was often so low that it was unfit for drinking purposes. On investigation it seemed wise to dig a new well. This was done and the water supply is now ample for all purposes. The water was analyzed by the State Department of Health and approved for drinking purposes.

As mentioned in my report of last year the heating plant demanded some repairs. A new smoke pipe was installed and new grates purchased. New valves will soon be necessary.

An attempt was made to prevent the water from draining into the basement. Some eaves spouts were placed on the rear of the building. This helps, but more work must be done to keep the basement dry. The drain pipe from the basement is inadequate and a larger pipe laid with a greater incline seems necessary.

Last year I requested that the municipal officers purchase flags so that all school buildings should be provided with flags. This request was graciously received, but beau-

tiful flags have been provided—not at the expense of the town, but as gifts from the American Legion and Women's Auxiliary. These flags will be formally presented to the schools at Lockes Mills and Greenwood City before this report is printed. In behalf of the School Committee, citizens, teachers and pupils of these schools, I wish to thank the above named patriotic organizations for these timely gifts.

The health condition of the children is reported by the nurse as an improvement over last year.

The problem of treating teeth defects is difficult because so many parents cannot stand the expense. That the care of the teeth is of the greatest importance in a child's physical welfare is no longer questioned.

The committee and superintendent have considered most carefully the appropriations for next year. The matter of conveyance presents a problem in that the conveyance requirements vary so that it is impossible to make a satisfactory estimate for this item.

Due to some of the high school tuition pupils having moved out of town and that some others have dropped out during the year, the unexpended balance is such that the committee recommends a decrease of \$200 from the appropriation of last year.

In case some one may think that in view of the increased aid from the equalization fund the town appropriations could be reduced, I quote the following from the regulations governing this fund:

“The law specifically provides that the equalization fund shall be expended for those purposes designated by the Commissioner of Education. No part of the equalization fund can be utilized for reducing appropriations at the annual meeting of the town. Towns at their annual meetings in 1938 should make appropriations at least on a level with those made at the annual meetings in 1937. Otherwise, they may forfeit any right to share in the distribution of equalization in December, 1938.”

There is a slight overdraft in the repair account this year, but the committee feels that the emergency which had to be met in regard to the water supply more than justifies this overdraft.

The interior of some of the rooms at Lockes Mills and the building at Richardson Hollow should be refinished and it is probable that one side of the Richardson Hollow building will have to be shingled.

In accordance with the law governing the closing of schools because of the average attendance, the Richardson Hollow school is closed by the State Department of Education but the committee recommends that this school be kept open on account of its location.

In submitting this report I wish to thank the Superintending School Committee, the citizens, teachers and pupils of Greenwood for their cooperation in my endeavor to minister to the needs of the schools.

Respectfully submitted,

CARRIE M. WIGHT,

Superintendent
